

2011 Military Health System Conference

Substance Abuse Policy and Services in the MHS; Current State and the Way Ahead

The Quadruple Aim: Working Together, Achieving Success

CAPT DeMartino

24 Jan 11

Office of the Chief Medical
Officer: TMA

Overview

- Introduction and Background (RD)
- Hx of Programming Changes/Tx (AO)
- Common Program Elements Reviewed (AO)
- Service Review of Programs/Services
 - Army
 - AF
 - Navy
- Way Ahead: Recommendations/Actions (RD)
- Panel Discussion

Quadruple Aim

SUDs

Presenters and Panel Members

- Col John J. Stasinos, Addiction Medicine OTSG
- Lt Col Mark Oordt Chief, ADAPT, USAF
- Mr. Tom Marquez, Chief, Prev/Training Army Center for Substance Abuse
- Mr. Charles Gould, Prgm Dir, BUMED D/A
- Ms. LaNorfeia Holder, Navy Personnel
- Mr. Mary E. (Tib) Campise, OUSD, MC&FP
- Al Ozanian, OCMO, Addiction Med, Program Mgr

Background

2011 Military Health System Conference Evolution of SUD Programming & Tx

The Quadruple Aim: Working Together, Achieving Success

Al Ozanian

OCMO/Behavioral Health
Division

Evolution of Programming

- The Start of Drug Testing
 - A Move From Alcohol Centric Treatment
- Standup of TRICARE
 - The Leveraging of Private Sector Care
 - Impact on “Inpatient” Treatment Programs
- Changing Treatment Modalities...Move to Recognize Primary Care Brief Interventions

2011 Military Health System Conference Army Unique Findings

The Quadruple Aim: Working Together, Achieving Success

John J. Stasinos, M.D., COL, MC, USA

24 January 2011

Office of the Surgeon General,
HQDA

Army Centric Programming

- Rate of Alcohol Use Disorder Diagnoses among Active Duty Service Members

Army Centric Programming

- Rate of Other Substance Use Diagnoses among Active Duty Service Members

Army Centric Programming

- Statistics Related to Substance Abuse Offenders

Army Centric Programming

- Findings
- Recommendations
 - Comply with existing policies
 - Enact new policies to close gaps in monitoring & coverage of SUD-related behaviors

- Research Triangle Institute Stigma Study
 - Stigma study has documented that:
 - ASAP treatment is typically associated with administrative response to alcohol-related infractions
 - 40% of Soldiers surveyed believe that their careers will be harmed if they are in treatment for alcohol abuse
 - Bottom Line: Soldiers believe that self-referral to ASAP would harm their careers

Army Centric Programming

- ASAP Pilot: CATEP
 - Authority: Secretary of Army
 - Scope: Pilot for Soldiers who self-refer to the ASAP with alcohol problems before they have an incident, without consequent compromise to military career.
 - Purpose: Test feasibility of trial policy changes with intent to improve Soldiers' access to alcohol treatment earlier in the course of their illness.

Army Centric Programming

- ASAP Pilot: Trial Policy Changes
 - Command involvement in ASAP treatment is **OPTIONAL** (but encouraged).
 - Active participation in ASAP treatment is **VOLUNTARY**.
 - Soldiers in ASAP treatment are **NOT SUBJECT** to **NEGATIVE PERSONNEL ACTIONS** (barred, flagged, etc.).
 - Soldiers who fail treatment **WILL NOT BE ADMINISTRATIVELY SEPARATED**.
